

COURSE EQUIVALENCY PETITION

A separate form must be completed for each course equivalency request. Although the program accepts course equivalencies, it is unlikely that equivalency would be granted for all program courses. Since CSULB is recommending the candidate for the credential, the program will want some experience with the candidate as a student in class and as a potential teacher in the fieldwork. Equivalency for a single program course may be demonstrated through content in one or more non-program courses. **Equivalency is not granted for student teaching.** Please print clearly.
